

· BRANDED SPIRITS LIMITED ·

Branded Spirits Limited was founded in 2007 with the proposition that high quality and high price did not need to be synonymous in the industry. Using two decades of experience in the spirits business, we searched the world for the best barrels, ingredients and distilling talent.

We sought out to create new flavor profiles by using rare ingredients and unique distillation techniques. It was equally important to put time and effort into our packaging. Whether it is the electric blue eyes of our Ice Fox captured in our beautiful crystal quality glass bottles or it is the knowledge that the inspiration for each bottle of our rum comes from the far away islands of Polynesia and will return there in the form of financial support for the coral reef, our customers get an experience that is more than just one of the finest drinks for the price point that you can find.

Our spirits are sourced from around the world, most from artisan distillers. We shy away from the bulk and ordinary. We are also pleased that several of our brands are distilled right in the United States of America, which still has an abundance of craftsmanship in the time-honored skill of distilling if you know where to find it. Many of our chosen spirits have won double gold medals at various international spirits competitions.

Our team is an international one and our focus is to build our brands case by case in the major markets of the world, including the United States, China, Europe, the Middle East and Russia. We are backed by a group of sophisticated international private equity investors, and we look forward to sharing our passion with you.

• ICE FOX VODKA

Ice Fox's signature, sweet finish and its beautiful package embodies the grace, honesty and panache of the elusive Arctic Fox, an endangered species we donate to protect.

Ice Fox is made from the highest quality corn, which we procure from some of the longest standing farming families in the United States. The region where we source our maize, known as the Corn Belt, is famous for level and deep fertile soils high in organic matter. Once fermented, we combine the sweet corn distillate with crystal clear water from the Sierra Mountain Range in California. Our Master Distiller and his family personally taste test each production run before bottling the premium liquid into our elegant Ice Fox bottles.

Packaged in a beautiful bottle designed to mirror the majesty and elegance of the vodka within, Ice Fox embodies the grace, honesty, and panache of the elusive Arctic Fox itself. Recently placed on the Critically Endangered species list, Ice Fox Vodka donates a portion of its profits to protect the shrinking population of Arctic Foxes that inspired our product.

• HANA GIN

Precisely distilled and made with excellent citrus botanicals, Hana Gin is a show stopper with notes of gentle lavender and bright juniper.

This striking bottle makes a promise that the super premium gin it contains deliciously fulfills. The image of the rare orchid engraved on the bottle hints at the hand selected botanicals that give Hana its beguiling aroma and taste.

In order to pull out the best flavors from our wonderful ingredients, we employ the rare technique of vacuum distillation. We use a vacuum to pump pressure into the still, allowing us to distill at a lower temperature than is typical, thus protecting the exquisite flavors of Hana's four main ingredients and ensuring that they are not "over cooked".

Shelf appeal is extraordinary, and even the shipper carton that the bottles arrive in, is striking enough for display.

• GLEN OAK-SINGLE MALT WHISKY

The taste of Scottish History

The Glen Oak line of Single Malt Scotch Whiskies is comprised of carefully selected barrels from Scotland's most storied distilleries. The malts and barrels are selected by a panel of Scotch Whisky experts based in both Scotland and the United States. Glen Oak's three introductory expressions are the balanced 10 year old, the dynamic 17 year old and the rare, exquisite 30 year old.

10 Year Old – Light, yet not lacking for character or taste, Glen Oak 10 YO embodies the characteristics that have made the Highlands the most desired destination for single malt Scotch whisky. A fruity nose gives way to a palate of sweet grains and a fresh, grassy finish. Excellent neat, with changing characteristics coming from the addition of a touch of ice or water.

17 Year Old – Resting in bourbon barrels for over 17 years, Glen Oak 17 YO is delicate and dynamic. Building on the profile of its younger, 10 year old cousin, the Glen Oak 17 YO has an orange spice nose and a palate of nuts, dried fruit and a light smoke finish. Recommended to be enjoyed neat, but a small ice cube will bring out creamy vanilla on the tongue.

30 Year Old - Only 90 total bottles survive from this amazing 30 year old vintage. Glen Oak 30 YO is a triumph of Scotland's oldest master distillers. Our rare and prized 30 Year Old Single Malt delivers long, rich notes of leather on the nose and fantastic chocolate and fudge on the tongue: an extraordinary experience not to be missed.
